The Company That Performs

Smart & Efficient Technology

Innovative Smart program ensures an equal fragrance release over 30 days. Contains a light sensor to conserve battery life so the unit only works when the room is in use. The smart chip controls the programming so the fan runs sparingly in week 1 and gradually turns more frequently over the 4 week period, helping release the same amount of air freshener daily over 30 days.

Tech Specs

Light Activated – Only runs when the lights are on

Requires one C Alkaline Battery

Removing the battery starts the program over at day one

GREEN light blinks every 15 seconds when program is running

RED light blinks when battery is low or on day 30

The word 'REPLACE' flashes on day 30

An audible beep begins on day 33 if the refill and battery have not been replaced

Fragrance	Product Code	Inner	Master
Dispenser	CC204-FAN	–	12
● Kiwi Grapefruit	CC204-KG	8	48
● Summer Sunshine	CC204-SS	8	48
