

Marigonna (CC420)

Smoke Odor Eliminator

LABEL INFORMATION

Marigonna Smoke Odor Eliminator

MARIGONNA eliminates unpleasant odors left behind from cannabis smoke. Marigonna works through a two-fold process. This product contains a new generation fragrance that will reconfigure the malodors so that the human senses do not detect the obnoxious smell. This product will continue to work through a microbial process that absorbs odor molecules and terpenes, leaving the treated surfaces with a fresh clean fragrance.

USE ON

- Carpet
- Cigarette Urns
- Garbage Cans
- Upholstery
- Air Conditioning
- Auto Interiors
- Draperies

USE IN

- Apartments
- Detail Shops
- Rental Properties
- Housing Authority
- Hotels/Motels

USE FOR

- Cannabis Smoke
- Cannabis Stench

DIRECTIONS

As a mist-type spray: Spray directly onto the surface. Be sure to saturate cloth materials to ensure solution reaches the source of the odor. Allow product to air dry. Can be used in auto interiors by spraying on fabric or in air handling units or wiping on surfaces. When spraying textiles, test on an inconspicuous area for color-fastness before use. Use Caution when spraying silk products or fabrics affected by water. SAFETY: Wash hands, forearms, and face thoroughly after handling chemical products, before eating, smoking, and restroom. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

SPECIFICATIONS

ODOR: Fragranced
PHYSICAL STATE: Liquid
APPEARANCE: Opaque White Liquid
DETERGENCY: N/A
pH: 7.5 to 8.5
FLAMMABILITY (SOLID, GAS): N/A

SOLUBILITY: N/A
VISCOSITY: N/A
MELTING/FREEZING POINT: N/A
FLASH POINT: N/A
REACTIVITY: None known
VAPOR PRESSURE: N/A

EVAPORATION RATE: Similar to water
BULK DENSITY: N/A
AUTO-IGNITION TEMPERATURE: N/A
ELECTRICAL CONDUCTIVITY: N/A
FREEZING POINT: < 32°F
INCOMPATIBLE MATERIALS: None known
