

# Liberty Pumps®

## Pro-Series Accessories

### X8

#### 8" Basin Extension

Sealed basin extension increases PRO-Series height by 8", allowing longer pitched pipe runs to the inlet connection.

*Fits both PRO370 and PRO380-Series Systems*

Model X8 extension includes gasket, stainless steel bolts, longer QuickTree® for float mounting and discharge pipe extension.

To order X8 extension factory assembled to any PRO-Series system, add "X8" to model number

Examples: P382X8LE41, P372X8LE51

Passes 10' Stack Test

### ARC18 Access Riser

For below grade burial of pipes and electrical connections

*Fits both PRO370 and PRO380-Series Systems*

**ARC18** Access riser and Cover

**AR18** Access riser only (no cover)

**AC18** Cover only

#### Installation Kits

Provides all the necessary components for a professional installation inside the riser. Kits include: JB-series wiring box and hardware, 2" check valve with disconnect union feature, coupling and elbow. (2" PVC piping not included.) Kits available in 2" pipe size only.
