60 YEARS AGO, the standard family had the standard home with standard designs.

Price Pfister's new products for 2006 are anything but standard and mark another series of firsts for Price Pfister.

Price Pfister continues to keep pace with the ever emerging design trends of the building industry. Whether it be the introduction of new finishes or perhaps a Builder Exclusive line of bath products, Price Pfister is positioned now, more than ever to meet all of your fashion plumbing needs.

Perhaps the biggest news at Price Pfister in 2006 is that we have, for the first time ever, partnered with Kwikset, the #1 leader in door hardware, to bring you Architecturally Inspired Collections. Each collection embraces a unique, architecturally inspired design offering you the opportunity to coordinate not only the finish on all your faucets, locks and bath accessories, but also to carry the integrated styling cues throughout your entire project.

Price Pfister continues to reinvent itself by introducing new and innovative products, with new and innovative features. From sleek and modern to vintage and country, Price Pfister offers beautifully designed faucets for the most beautifully designed homes.

THE PFOREVER WARRANTY®

When it comes to our warranty, Price Pfister is at the top of the industry with a guarantee of quality that covers finish and function for life.

THE PFOREVER PFINISH®

Pforever Pfinish® is an electronically-bonded finish with PVD (Physical Vapor Deposition) and is available in Satin Nickel*, Brushed Brass and Polished Brass.

*Brushed Nickel is now called Satin Nickel

CERAMIC DISC VALVES

Ceramic disc valves, which are made from the hardest material on earth next to diamonds, withstand even the harshest water conditions. Ceramic discs never leak, guaranteed.

USING THIS BOOK

Products are organized both by family collection and function. The first portion of this catalog is organized by family collection for those looking to coordinate a bathroom, kitchen or complete home with matching products. Following the family collections, products are grouped by function for those who wish to view all kitchen or lavatory faucets, for example.

Models displaying the International Symbol of Accessibility are accessible by physically disadvantaged persons and meet all ADA/ANSI A117.1 requirements.

The ADA symbol applies to valve control only.
