Kohler sets an industry benchmark for faucets with its Vibrant finish. Working at the molecular level, the Vibrant process enables Kohler to produce faucets in a variety of polished and brushed color/finish options. All possess a luster that clearly shines through for the life of the faucet.

KOHLER faucet components are precision-engineered and constructed of premium quality materials. These materials not only offer superior function and greater strength, they also provide a durable base for a Vibrant finish.

Kohler employs a state-of-the-art Physical Vapor Deposition (PVD) process to create the Vibrant finish. The process creates an incredibly strong surface and a remarkably durable finish; one that is resistant to scratching, tarnishing and corrosion.

PVD is a vacuum coating process in which the Vibrant coating material is vaporized and transported through a vacuum to molecularly bond to the faucet. It is condensed as a thin film onto the faucet to form a durable surface that won't tarnish, corrode or scratch.

Kohler applies its PVD finish over chrome plating, one of the most durable finishes available. Thus, KOHLER faucets with Vibrant color/finishes have the corrosion protection of not only the PVD layer, but also the chrome layer beneath. That means a Vibrant finish faucet will stand up to the most intense kitchen and bath use and still look like new nearly forever.

Extraordinary care is taken during the PVD process. Kohler technicians work in a clean-room environment, eliminating the possibility of contamination. The entire process is computer-controlled to ensure color/finish consistency and repeatable high quality.

Using controlled variations of the PVD process, Kohler has created a number of beautiful Vibrant color/finishes. An extensive range of KOHLER faucets, available in the following Vibrant color/finishes, is available to accent or complement any décor: Vibrant Polished Brass, Vibrant Polished Nickel, Vibrant Brushed Nickel, Vibrant Brushed Bronze, Vibrant Brazen Bronze, Vibrant French Gold, and Vibrant Stainless.

From their washerless ceramic valving to their scratch-resistant surface finish, Kohler faucets* with Vibrant color/finishes are built to last and carry the KOHLER Lifetime Limited Warranty for as long as the original consumer purchaser owns his or her home.

* Trend® faucets; MasterShower™, Tower; BodySpa™, systems and components; WaterHaven™, Tower; systems and components; Polished Gold finishes; fittings; all items within the "Fixture Related" section of the KOHLER Faucets Price Book, drains, DuoStrainer® sink strainers, soap/lotion dispensers; and faucets used in commercial settings and outside North America, are covered by Kohler's one-year limited warranty.

** Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. This will void the warranty.
